

## DC 12V ELECTRIC SOLENOID VALVE MAGNETIC N/C WATER AIR INLET FLOW SWITCH 1/2"

Material: Metal + plastic

Voltage:DC 12V

Inlet and outlet:hose barbs for 1/2" (outer diameter) hose

Pressure:0.02- 0.8Mpa

Max fluid temperature:100°C

Operation mode:normally closed

Valve type:diaphragm (operated by Servo)

Usage:water and low viscosity fluids

Please note it is not suitable for use with gravity fed systems

### **Package Included:**

1PCS \* 1/2" N/C Magnetic Electric Solenoid Valve Water Air Inlet Flow Switch DC 12V
